PrimeMail Pharmacy staff may contact your physician for clarification and safety purposes, which may result in your physician prescribing a different, clinically-appropriate product. PrimeMail Pharmacy will dispense FDA-approved generic equivalents when available and appropriate.

Some health plans require the patient to pay the difference between generic and brand name cost. State law allows pharmacist to substitute a less expensive generically equivalent drug for a brand drug unless you or your physician directs otherwise.

Do you want the generic? Yes (if available and your doctor permits) No

By returning this form to PrimeMail, you consent to the use and release of your health information to your health plans and health care providers/agents for health benefits management. Prime Therapeutics' use or disclosure of individually identifiable health information, whether furnished by you or obtained from other sources such as medical providers, shall be in accordance with the federal privacy regulations under HIPAA (Health Insurance Portability and Accountability Act of 1996).
